Q-Safe Couplings Serve a Wide Range of Vehicles

June 1, 2011 – The Q-Safe coupling line from [Manuli Hydraulics Americas Inc.](#), Warrendale, Pa., features a wide range of hydraulic couplings that meet and exceed the industry standards for double shut-off applications. The Q-Safe products are manufactured to many of the industry standards such as ISO 7241-A, ISO-B, ISO 16028, ISO 15171-1, ISO 5676 and ISO 7241-2.

Manuli Q-Safe range offers hydraulic solutions for markets such as construction, agriculture, forestry, mining, utility vehicles, transportation, and industrial. The products range from 1/4 to 1-1/2 inch body sizes and up to 10,150 psi working pressures and 1,000,000 impulse cycles.

All series are provided with an environmental friendly Cr3+ (Trivalent Chrome) surface coating for an excellent resistance to corrosion, exceeding the ISO 4520 requirements (salt spray resistance: 240 hours for white corrosion and 400 hours for red corrosion).

For more demanding OEM applications, Manuli offers an innovative solution for quick coupling to hose attachment. The DHI (Direct Hose Integration) joins quick couplings (ISO A, ISO 16028 & Push-Pull) and hose inserts (MF2000) for highly compact, shorter, lighter, lower cost, leak-free solutions. Body sizes available are 3/8-inch and 1/2-inch.

Manuli also offers a range of check Valves, caps/plugs and replacement spare parts.
