

## ADJUSTABLE DECOILER ADAPTS TO VARIOUS HOSE DIAMETERS

Manuli Hydraulics is always on the lookout for ways to improve both the efficiency and the quality of new and existing production operations. With this in mind we have reassessed our production equipment offering.

As a market leader in hydraulic hoses and assembly machines, we wanted to offer a device to improve our customers' productivity when assembling hoses.

After a rigorous product development process and hours of field testing in OEM environments, our dedicated team of engineers conceived a decoiler with high adaptability, suitable for a hose reel or a coil up to 100 kgs (200 pounds). Our new accessory is stable and equipped with a hose guide system and a manual break, offering more safety and efficiency.

Our new decoiler is available immediately (p/n: ESC3320NTDEVIDOEM).

**Contact your Manuli Hydraulics representative now to find out more about this and the rest of our assembly equipment range.**
