

SLIDERLOCK™

Manuli Hydraulics is proud to introduce Sliderlock, a new concept to ensure staple lock hose connection integrity.

The spring loaded cover ensures that the staple is fully retained, even under the harshest of conditions. This unique feature enhances the staple lock design which has been in use in underground mining applications for over 50 years.

*Sliderlock cover in
"Locked" position*

KEY BENEFITS

- Enhanced safety and performance
- Ensures full staple retention
- Inspection holes allow visual staple check
- Innovative design actively prevents cover disengagement during service
- Cover minimises dust ingress
- Compact, snag-free design
- The safety cover always remains on the hose
- Knurled finish for easy twist-and-click connection
- Red colour identifies high pressure lines

Part No.	Dash	Inches	DN	O.D. (mm)	W.P. (bar)	Impulse Cycles
* SLH-24	24	1½	38	92	420	1,000,000
* SLH-32	32	2	51	107	420	1,000,000
* SLH-40	40	2½	63	122	350	1,000,000
* SLH-48	48	3	76	152	350	1,000,000

** fully interchangeable with SH & SHF series staple male ends*

Sliderlock design is also available on SAF, SAFF, SAFFX and SHF product ranges
